Profile

I am a front-end developer proficient in JavaScript and React.js, with a solid understanding of HTML and CSS. I have developed dynamic web applications and am now expanding my skills to backend technologies to become a well-rounded developer. As a fresher, I am eager to apply my knowledge and grow in a collaborative team.

Projects

JOHAL'S DAIRY

06/2024– Present

React, Javascript, HTML, CSSS

In Development: Building a responsive web application for my family's dairy business using React.js (including React and JavaScript), HTML, and CSS.

Prototyped using Figma.

Frontend Development: Responsible for the user interface and user experience, ensuring a seamless experience for online milk product ordering and livestock (cow) purchasing and selling.

Working alongside a colleague who will be developing the backend functionality using Spring Boot.

FOOD DELIVERY APP

04/2024 – 05/2024

React, React-Router, API Integration HTML, CSSS

Developed a responsive food delivery web application using React.js and React-Router.

Implemented user login functionality and built a shopping cart with Context API for state management.

Ensured seamless item deletion from the cart.

Designed a responsive user interface with CSS for optimal viewing across devices.

WEATHER APP

03/2024

API Integration, Javascript, HTML, CSSS

Developed a responsive weather app using HTML, CSS, and JavaScript to display real-time weather data via API integration.

SCRAMBLED GAME

02/2024

Javascript, HTML, CSSS

Built interactive JavaScript word scramble game with dynamic UI (HTML & CSS) for a brain-teasing experience.

Experience

Railworld India Pvt Ltd

02/2024 - 06/2024

Software Developer Intern

Javascript, React, React.Js, Figma, Tailwind CSS

Explored various frontend frameworks, including React.js. Supported frontend development by designing UI elements in Figma and collaborating on React implementation of various project pages and API integration.
